

BYOd @ JNSHS

2016

I have a device at home. Can I use it at school?

Check with the JNSHS technicians.

They can help you identify the specs of your current device and provide advice on how well it will support learning at JNSHS.

BYOd @ JNSHS

2016

What subjects will use the device?

Each faculty has published how the device will be used and for which units of study.

Check the BYOd section of the JNSH website for this very specific information.

2016

What laptop should I buy?

Check the BYOd section of the school website for new device minimum specifications.

Take this opportunity to talk to the vendors at this BYOd Expo to help you determine the best device for your student and their studies.

BYOd @ JNSHS

2016

Do I need insurance?

Yes!

Talk to the vendors at the BYOd Expo about insurance options for their devices.

Also talk to your own insurer. The device may be covered by your current policy.
