

# 2026 ANNUAL IMPLEMENTATION PLAN (Final)

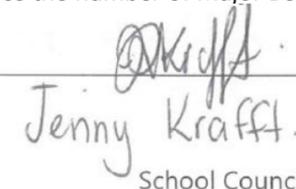

## Educational Achievement

Knowing and responding to each student's learning needs is essential to making sure they are on track to achieve their educational goals. Our common goal is for every student to progress in their learning each year to achieve individual excellence, and to invest in the capability and expertise of our people to support them.

## Belonging, Wellbeing and Engagement

Welcoming every student and supporting their unique needs creates a positive culture that promotes a sense of belonging, wellbeing and safety to support their engagement in learning. Our common goal is to create positive and inclusive teaching and learning environments where all staff and students feel confident, resilient and supported to thrive.

## Appendix 1: **improvement strategy:**

### **Link to school review improvement strategy:**

**Domain 5:** Systematically enacting opportunities for teachers to collaboratively strengthen their understanding of the EL initiative to further develop mastery of high-impact teaching strategies.

**Domain 2:** Strengthening teachers' capability in analysing student outcome data to identify and refine next steps in learning and to support students in developing personalised mastery goals.

**Domain 6:** Systematically enacting consistent collaborative planning, review and moderation processes to support the alignment of curriculum, teaching, learning and assessment.

*Staff feedback: competing priorities, time and workload – lack of adequate planning time. Strategic, phased approach to initiatives. Slow down the pace, phased rollout and the provision of clarity.*

### **Link to school review improvement strategy:**

**Domain 7:** Differentiating teaching and learning: Consolidate the range of expected practices for differentiating teaching and learning to support teachers in effectively engaging, challenging and extending all students.

**Domain 7:** Differentiating teaching and learning (Supporting Strategy) - Refine case management referral processes to provide clarity for staff and timely, targeted support for students.

**Domain 4:** Targeting school resources: Implement processes for monitoring school-resourced programs to evaluate their impact on student outcomes and guide future strategic decision-making.

**Domain 3:** Promoting a culture of learning (Supporting Strategy): Collaboratively develop, with regional support, alternative education and re-engagement programs to support at-risk junior secondary students.

**Domain 2:** Analysing and discussing data (Supporting Strategy): Broaden the range of student wellbeing data that is collected and analysed to inform and monitor targeted interventions that enhance student wellbeing and engagement.
